Possible Topics For Exploration 

- **Learning and teaching:** How do adults learn? What teaching strategies enhance learning? How can observation, practice, and reflection enhance learning and teaching? How are effective faculty development programs designed and implemented?
- **Curriculum:** What are the missions and assumptions of different health care curricula? What are the elements of effective curriculum design? How can we plan strategically for curricular change?

- **Evaluation:** What are the basic purposes of educational evaluation, research and assessment in nursing education? What methods of evaluation are effective in assessing the merits of innovative activities? How can evaluation outcomes best be disseminated and used?
- **Leadership:** How can organizations plan strategically for the introduction of educational innovations? Which leadership styles increase the likelihood of acceptance of change?
- **Educational technology:** What are the latest contributions of Information Technology to effective learning and curriculum design? How can Information Technology and Web technology be used to facilitate teaching and learning?
